The subject of protecting the rights of citizens of the United States over the Nicaragua transi: route occupies the attention of the Administration, and measures will doubtless be taken to prevent any improper interference with them by foreign powers.

The War Department has received information from Gen. Johnston, but it gives nothing more than what has appeared in the newspapers. The army at Camp Scott was still waiting for enquires.

The dispatches for teen. Scott having been sent direct to his headquarters, have not yet reached this city.
